

Bonnell 805

Specifications

Epic control. Amplified.

Serious power. Less weight.

More control over every part of the ride.

Powertrain

805 RX

42 kW peak (56 hp), 805 Nm at the rear wheel and 12,000 rpm, moving just 218 lb (99 kg).

The power-to-weight ratio is the whole story, the 805 RX leaves corners like nothing else on knobs.

Swappable Battery

805 RX

Key in, seat off, release the latch, disconnect, and lift the pack out. A quick swap, right at the trailhead. Charging on the bike? Open the left charger cover, lift the rubber cap, and plug in. Core 3.9 kWh comes standard; Race 4.7 kWh is an optional upgrade.
